

Social & Responsible AI Research
Cambridge, UK

Visiting Positions

Summer 2026

We welcome **self-funded** academic visitors for a few summer months (**June-August 2026**) to explore a variety of topics, including moral AI, participatory auditing of AI risks, AI governance, and discourses around data centers.

MAIN RESPONSIBILITIES

1. Define research objectives in line with the team's: <https://social-dynamics.net/newsletter/2025>
2. Propose and publish research for the major research publications worldwide.

EXPECTED QUALIFICATIONS AND EXPERIENCE

1. World-class research track record in any of the areas of interest.
2. Ability to adapt own vision to lab-wide's.

HOW TO APPLY

Please send your application material with subject line "Visiting 2026" to the following address by the **8th of February 2026**:

social-dynamics@groups.nokia.com

Application material should include CV, a brief proposal that spells out the work you'd like to conduct during your visit, proposed length of visit, and a copy of a recent publication or an example of relevant work.
